Role identification

Field	Exact value
Role	Receptionist
Username	<code>receptionist</code>
Password	<code>ReceptionDemo123!</code>
Login URL	<code>http://127.0.0.1:8000/accounts/login/</code>
Database reset	<code>python src/manage.py reset_demo_data --yes</code>

Field	Exact value
Evidence directory	<code>docs/uat/evidence/receptionist/</code>

This is a local demonstration account. Replace it with a unique, securely managed account in production.

Preparation and shared test rules

OYERA Role-by-Role User Acceptance Test Casebook

- Generated: 2026-08-04
- Base URL: `http://127.0.0.1:8000`
- Database baseline: `python src/manage.py reset_demo_data --yes`
- Result fields: PASS, FAIL, or BLOCKED

Purpose

This casebook gives the tester exact accounts, paths, input values, expected results, forbidden results, reset steps, and evidence requirements.

Global preparation

1. Keep the backup created before UAT.
2. Run:

```
python src/manage.py reset_demo_data --yes
```
3. Start OYERA:

```
python src/manage.py runserver 127.0.0.1:8000
```
4. Open `http://127.0.0.1:8000`.
5. Use a private browser window or log out between roles.
6. Reset the demo database before beginning each role section.
7. Stop immediately and record a defect if an expected result differs.

Evidence naming

Use:

UAT-<ROLE>-<CASE>-<short-description>.png

Capture:

- the browser URL,
- the completed form or resulting record,
- any success or error message,
- the final status,
- downloaded CSV files where required.

Exact demonstration accounts

Role	Username	Password
Administrator	admin	AdminDemo123!
Manager	manager	ManagerDemo123!
Receptionist	receptionist	ReceptionDemo123!
Senior Technician	senior_technician	SeniorTechDemo123!
Technician	technician	TechnicianDemo123!
Cashier	cashier	CashierDemo123!

Resolved seeded scenarios

Scenario	Record	Exact path
Submitted purchase order	DEMO-PO-SUBMITTED	/purchasing/purchase-orders/2/approve/
Reserve stock	UAT 101A	/inventory/requirements/1/reserve/
Issue stock	UAT 202B	/inventory/reservations/1/issue/
Return stock	UAT 303C	/inventory/movements/4/return/
Paid vehicle release	UAT 404D / invoice 1	/jobs/4/release/
Unpaid override release	UAT 505E / invoice 2	/jobs/5/release/
Customer payment	Unpaid invoice 2	/billing/2/payments/new/
Supplier payment	DEMO-SINV-UNPAID	/purchasing/supplier-invoices/2/payments/new/
Assigned task A	Task 2	/workshop/tasks/2/start/

Scenario	Record	Exact path
Assigned task B	Task 3	/workshop/tasks/3/start/

Exact Receptionist procedures

Receptionist UAT

Reset the database, then log in as `receptionist`.

UAT-REC-01 - Register customer

1. Open `/customers/new/`.
2. Enter: - Customer type: `Individual` - Name: `UAT Reception Customer` - Phone number: `+256700900101` - Email: `uat.reception@example.com` - Address: `Kampala UAT Address` - Notes: `Created during Receptionist UAT.`
3. Save.

Expected:

- Customer is created.
- A customer number is generated.
- Customer detail page opens.

Evidence: completed customer detail screenshot.

Result: ____

UAT-REC-02 - Register vehicle

1. Open `/vehicles/new/`.
2. Select `UAT Reception Customer`.
3. Enter: - Registration number: `UAT 606F` - Category: `Small vehicle` - Make: `Toyota` - Model: `Yaris` - Year: `2021` - Color: `Blue` - Current mileage: `60600` - Fuel type: `Petrol` - Notes: `Created during Receptionist UAT.`
4. Leave engine number, chassis number, and VIN blank.
5. Save.

Expected:

- Vehicle is created and linked to the selected customer.
- Registration displays as `UAT 606F`.

Evidence: vehicle-detail screenshot.

Result: ____

UAT-REC-03 - Open job card

1. Open `/jobs/new/`.
2. Select: - Customer: `UAT Reception Customer` - Vehicle: `UAT 606F`
3. Enter: - Arrival mileage: `60600` - Customer complaint: `Customer reports engine oil warning during UAT.` - Visible condition: `No external damage observed during intake.` - Fuel level: `Half` - Priority: `Normal`
4. Save.

Expected:

- Job card is created with status `OPEN`.
- Customer and vehicle match.
- Mileage is accepted.

Evidence: job-card detail screenshot.

Result: ____

UAT-REC-04 - Release fully paid vehicle

1. Open `/jobs/4/release/`.
2. Confirm registration `UAT 404D`.
3. Enter: - Final mileage: `40400` - Final vehicle condition: `Vehicle clean and ready for customer collection.` - Received by: `UAT Paid Customer` - Receiver contact: `+256700000404` - Handover notes: `Keys and service documents handed over.`
4. Submit.

Expected:

- Release succeeds without an override.
- Job status becomes `RELEASED`.
- A vehicle-release record is created.

Evidence: release-detail screenshot.

Result: ____

UAT-REC-05 - Billing is forbidden

1. Open `http://127.0.0.1:8000/billing/`.

Expected:

- Access Denied page or HTTP 403 .
- No invoice data is displayed.

Evidence: access-denied screenshot.

Result: ____

UAT-REC-06 - Stock reservation is forbidden

1. Open `/inventory/requirements/1/reserve/` .

Expected:

- Access Denied page or HTTP 403 .
- No stock reservation is created.

Evidence: access-denied screenshot.

Result: ____

Verified execution results

Case	Status	Evidence	Issue	Notes
UAT-REC-01	PASS	<code>evidence/receptionist/UAT-REC-01-customer-created.png</code>		Customer was created with a generated customer number.
UAT-REC-02	PASS	<code>evidence/receptionist/UAT-REC-02-vehicle-created.png</code>		UAT 606F was registered to the new customer.
UAT-REC-03	PASS	<code>evidence/receptionist/UAT-REC-03-job-card-created.png</code>		An OPEN job card was created for UAT 606F.
UAT-REC-04	PASS	<code>evidence/receptionist/UAT-REC-04-paid-release.png</code>		Fully paid UAT 404D was released without a payment override.
UAT-REC-05	PASS	<code>evidence/receptionist/UAT-REC-05-billing-denied.png</code>		Receptionist billing access correctly returned HTTP 403.
UAT-REC-06	PASS	<code>evidence/receptionist/UAT-REC-06-stock-reservation-denied.png</code>		Receptionist stock-reservation access correctly returned HTTP 403.

CSV evidence

No CSV evidence is required for this role.

Tester completion record

Field	Entry
Tester	
Test date	
Environment	
Result	PASS / FAIL / BLOCKED
Defect IDs	
Signature	

Verified Evidence Gallery

6 non-empty PNG evidence files are included in this guide.
