

OYERA AUTO SERVICE SYSTEM

OYERA Administrator Tester and User Guide

Exact account, permitted and forbidden actions, test data,
expected results, and verified evidence

Release branch: feature/uat-handover

Source commit: 61985a3

Generated: 2026-08-05

Acceptance result: 32 / 32 PASS

OYERA Administrator Tester and User Guide

- OYERA Administrator Tester and User Guide
 - Role identification
 - Preparation and shared test rules
 - OYERA Role-by-Role User Acceptance Test Casebook
 - Purpose
 - Global preparation
 - Evidence naming
 - Exact demonstration accounts
 - Resolved seeded scenarios
 - Exact Administrator procedures
 - Administrator UAT
 - UAT-ADM-01 - Authentication and dashboard
 - UAT-ADM-02 - Django administration
 - UAT-ADM-03 - Complete operational reporting
 - UAT-ADM-04 - Approve submitted purchase order
 - Verified execution results
 - CSV evidence
 - Tester completion record

Role identification

Field	Exact value
Role	Administrator
Username	<code>admin</code>
Password	<code>AdminDemo123!</code>
Login URL	<code>http://127.0.0.1:8000/accounts/login/</code>
Database reset	<code>python src/manage.py reset_demo_data --yes</code>
Evidence directory	<code>docs/uat/evidence/administrator/</code>

This is a local demonstration account. Replace it with a unique, securely managed account in production.

Preparation and shared test rules

OYERA Role-by-Role User Acceptance Test Casebook

- Generated: 2026-08-04
- Base URL: `http://127.0.0.1:8000`
- Database baseline: `python src/manage.py reset_demo_data --yes`
- Result fields: PASS, FAIL, or BLOCKED

Purpose

This casebook gives the tester exact accounts, paths, input values, expected results, forbidden results, reset steps, and evidence requirements.

Global preparation

1. Keep the backup created before UAT.
2. Run:

```
python src/manage.py reset_demo_data --yes
```
3. Start OYERA:

```
python src/manage.py runserver 127.0.0.1:8000
```
4. Open `http://127.0.0.1:8000`.
5. Use a private browser window or log out between roles.
6. Reset the demo database before beginning each role section.
7. Stop immediately and record a defect if an expected result differs.

Evidence naming

Use:

```
UAT-<ROLE>-<CASE>-<short-description>.png
```

Capture:

- the browser URL,

- the completed form or resulting record,
- any success or error message,
- the final status,
- downloaded CSV files where required.

Exact demonstration accounts

Role	Username	Password
Administrator	admin	AdminDemo123!
Manager	manager	ManagerDemo123!
Receptionist	receptionist	ReceptionDemo123!
Senior Technician	senior_technician	SeniorTechDemo123!
Technician	technician	TechnicianDemo123!
Cashier	cashier	CashierDemo123!

Resolved seeded scenarios

Scenario	Record	Exact path
Submitted purchase order	DEMO-PO-SUBMITTED	/purchasing/purchase-orders/2/approve/
Reserve stock	UAT 101A	/inventory/requirements/1/reserve/
Issue stock	UAT 202B	/inventory/reservations/1/issue/
Return stock	UAT 303C	/inventory/movements/4/return/
Paid vehicle release	UAT 404D / invoice 1	/jobs/4/release/
Unpaid override release	UAT 505E / invoice 2	/jobs/5/release/
Customer payment	Unpaid invoice 2	/billing/2/payments/new/
Supplier payment	DEMO-SINV-UNPAID	/purchasing/supplier-invoices/2/payments/new/
Assigned task A	Task 2	/workshop/tasks/2/start/
Assigned task B	Task 3	/workshop/tasks/3/start/

Exact Administrator procedures

Administrator UAT

Reset the database, then log in as `admin`.

UAT-ADM-01 - Authentication and dashboard

1. Open `http://127.0.0.1:8000/accounts/login/`.
2. Enter `admin`.
3. Enter `AdminDemo123!`.
4. Submit.

Expected:

- Login succeeds.
- Dashboard opens.
- Administration, billing, customers, inventory, jobs, products, purchasing, quotations, reports, services, vehicles, and workshop navigation are visible.

Evidence: dashboard screenshot.

Result: ____

UAT-ADM-02 - Django administration

1. Open `http://127.0.0.1:8000/admin/`.

Expected:

- Django administration index opens.
- The account is recognised as staff and superuser.
- No permission-denied page appears.

Evidence: administration index screenshot.

Result: ____

UAT-ADM-03 - Complete operational reporting

Open each page:

- `/reports/customer-finance/`
- `/reports/workshop-operations/`
- `/reports/inventory-activity/`

- `/reports/purchasing-activity/`

Then download:

- `/reports/customer-finance/export.csv`
- `/reports/workshop-operations/export.csv`
- `/reports/inventory-activity/export.csv`
- `/reports/purchasing-activity/export.csv`

Expected:

- All four report pages open.
- All four CSV responses download.
- CSV files contain headers and seeded rows where applicable.

Evidence: four report screenshots and four CSV files.

Result: ____

UAT-ADM-04 - Approve submitted purchase order

1. Open `/purchasing/purchase-orders/2/approve/` .
2. Confirm the purchase order reference is `DEMO-PO-SUBMITTED` .
3. Tick: `I confirm that I reviewed and approve this purchase order.`
4. Submit.

Expected:

- The purchase order becomes `APPROVED` .
- Approval evidence is recorded.
- The order is no longer awaiting approval.

Evidence: approved purchase-order detail screenshot.

Result: ____

Verified execution results

Case	Status	Evidence	Issue	Notes
UAT-ADM-01	PASS	<code>evidence/administrator/UAT-ADM-01-dashboard.png</code>		Automated Chrome login and dashboard navigation verification passed.
UAT-ADM-02	PASS	<code>evidence/administrator/UAT-ADM-02-django-admin.png</code>		Django staff and superuser access passed.

Case	Status	Evidence	Issue	Notes
UAT-ADM-03	PASS	<code>evidence/administrator/</code> and <code>evidence/csv/</code>		Four report pages and four authenticated CSV exports passed.
UAT-ADM-04	PASS	<code>evidence/administrator/UAT-ADM-04-purchase-order-approved.png</code>		DEMO-PO-SUBMITTED changed to APPROVED with administrator audit evidence.

CSV evidence

- `docs/uat/evidence/csv/UAT-ADM-03-customer-finance.csv`
- `docs/uat/evidence/csv/UAT-ADM-03-inventory-activity.csv`
- `docs/uat/evidence/csv/UAT-ADM-03-purchasing-activity.csv`
- `docs/uat/evidence/csv/UAT-ADM-03-workshop-operations.csv`

Tester completion record

Field	Entry
Tester	
Test date	
Environment	
Result	PASS / FAIL / BLOCKED
Defect IDs	
Signature	

Verified Evidence Gallery

7 non-empty PNG evidence files are included in this guide.
